

Febin Modavancheri

Retail & Business Data Analyst | Revenue & Demand Analytics

Dubai | United Arab Emirates

febinmodavancheri@gmail.com | +971522990304 | [LinkedIn](#) | [Github](#)

PROFILE SUMMARY

Data Engineer with experience in **demand analysis, forecasting, and business performance optimization** across multi-location operations. Skilled in **SQL, Python, R and Power BI**, with hands-on experience analyzing sales patterns, capacity constraints, and operational KPIs to support decision making. Experience includes **dashboard development, data validation, reconciliation, and cross-system data integration across ERP, operational, and reporting environments**. Worked on analytics projects involving customer behaviour prediction, time-series forecasting, and performance analysis, building a strong understanding of demand patterns, operational insights, and data-driven decision making.

EDUCATION

Master of Science in Data Science

University of Essex , United Kingdom | Nov 2024

B. Tech in Computer Science and Engineering

University of Calicut, India | May 2016

SKILLS

- Python | SQL | R | Power BI | Tableau | Excel (Pivot Tables, XLOOKUP, dashboards, DAX)
- Demand Analysis | Time-Series Forecasting | KPI Tracking | Trend & Variance Analysis | Data Validation
- Revenue Analysis | Cohort Analysis | Performance Analysis | Root Cause Analysis
- Customer Behavior Analysis | Customer Segmentation | Demand Analysis | Value vs Risk Analysis
- Data Modelling | ETL /ELT Workflows | Data Cleaning | Data Transformation
- Data Validation & Reconciliation | Transaction-Level Analysis | Data Quality Management
- MySQL | PostgreSQL | SQL Server | NoSQL | Firebase
- REST APIs | ERP/POS Systems | Systems integration | Cloud data platforms | Linux & Windows Environments
- Git | Gitlab | Bitbucket | Version Control | PHP (Laravel) | JavaScript | HTML | CSS | JSON
- Business Analysis | Problem Solving | Stakeholder Collaboration | Analytical Thinking
- Attention to Detail | Structured Problem Solving | Communication of Insights

PROFESSIONAL EXPERIENCE

Data Engineer | Pasons Group, UAE

Feb 2026 - Present

- Analyzed multi-location sales and transactional data to identify **demand trends, peak patterns, and revenue opportunities across outlets**.
- Developed **Power BI dashboards tracking KPIs such as sales, wastage, and cost efficiency** for business decision making.
- Extracted and transformed **ERP/POS data** using **SQL** to build clean, structured datasets for reporting and analysis.
- Managed **data integration across ERP, DMS, e-invoicing, and data warehouse systems**, ensuring consistent data flow across business functions
- Worked across ERP systems and company structures to maintain accurate **data mapping, validation, and reconciliation**.
- Designed and implemented **data warehouse structures**, defining **data flows from ERP and operational systems** to support reporting and analytics
- Supported finance and operational workflows involving chart of accounts mapping, transactional data handling, and reporting processes
- Collaborated on database access, server connectivity, and system-level data integration workflows

Data Analyst | Ashwood Care, UK

May 2024 - Aug 2025

- Analyzed **sales trends, operational performance, and business data** to support planning and decision making.
- Built and maintained structured **reports and dashboards tracking performance trends and KPIs**.
- Worked with stakeholders to define metrics, validate figures, and align reporting with business reality.
- Contributed to an estimated **12% increase in sales** by delivering timely insights and performance analysis.
- Ensured data accuracy through validation, reconciliation, and clear documentation.

Data Engineer | SBG London, UK

Jan 2024 - Mar 2024 (Project Contract)

- Engineered and maintained high-volume relational databases (MySQL) for transactional systems.
- Built **API-driven data pipelines using Python and SQL** to integrate financial and POS data.
- Implemented data validation and transformation logic to deliver analytics-ready datasets.
- Optimised SQL queries and transformations to support near real-time reporting.
- Delivered documented datasets for reporting and monitoring in **Excel and Power BI**.

Data Engineer | Expose Infotech Pvt. Ltd., India

Feb 2019 - Mar 2023 (Earlier Tenure - Dec 2016 - Jan 2018)

- Ingested, transformed, and **integrated structured business data for analytics and reporting**.
- Designed analytical data models and reporting datasets using **SQL and Python**.
- Built reporting pipelines supporting dashboards and operational / financial reporting.
- Performed data validation, governance checks, and reconciliation to ensure reliable outputs.
- Acted as a lead point of contact within small teams, coordinating analytics tasks and delivery.

Software Engineer-Backend & Data Systems | Beacon Infotech Pvt. Ltd., India

Mar 2018 - Jan 2019

- Took responsibility for leading backend tasks and coordinating work within a small development team
- Acted as a bridge between technical teams and business stakeholders for clarifications and follow-ups
- Ensured proper documentation, tracking, and handover of system-related works

PROJECTS

Restaurant ERP Data Analysis & Reporting | SQL | Python | Power BI

- Analyzed ERP/POS transactional data to generate operational and business performance insights across retail workflows
- Built structured datasets and dashboards supporting KPI tracking, reporting, and decision making

Customer Booking Behavior Prediction | British Airways (Forage) | Python | SQL | Power BI

- Analyzed airline booking data to identify customer behavior patterns and demand trends
- Built SQL/Python analysis and Power BI dashboards to generate insights supporting forecasting and performance decisions

Financial Trend & Variance Analysis | Python, Excel

- Trend and variance analysis across revenue, cost, and efficiency metrics to identify drivers impacting business performance.
